

nano musik music sounds better Loops

'Sunbreeze Vol 1-MIDI PACK' from Nano Musik Loops features a Trance FL Studio Project with a hypnotic sound and club feel. The project is transparent and uncomplicated and has only four external plugins.

This pack delivers MIDI files, FX, samples and percussive elements for Trance producers who want to learn or dissect the FL Studio music-making process. Use the MIDI and parts as a start to your new remix and add your own elements and vocals.

Using the supplied MIDI files you can assign any of the musical phrases found in this pack to your favourite synth or sampler. As MIDI is effectively only instructional data, you can change the pitch and tempo to any extent you like.
