

nano musik music sounds better Loops

'Trance for 138 Vol 3 MIDI PACK' from Nano Musik Loops features next three Trance FL Studio projects with a hypnotic sound and club feel perfect for anyone producing Euphoric Trance, celebrating those intense moments of pure heaven and wanting to analyse and understand how it's done.

This pack delivers MIDI files, FX, samples and percussive elements for Trance producers who want to learn or dissect the FL Studio music-making process. Use the MIDI and parts as a start to your new remix and add your own elements and vocals.

Using the supplied MIDI files you can assign any of the musical phrases found in this pack to your favourite synth or sampler. As MIDI is effectively only instructional data, you can change the pitch and tempo to any extent you like.
