

nano musik music sounds better Loops

'nanoTrance: Uplifting Trance Project MIDI PACK Vol 6' by Nano Musik Loops is an FL Studio Trance project with MIDI files and presets. This hypnotic project is perfect for producers focused on Euphoric Trance.

This pack delivers a collection of MIDI files, synth Presets, FX and percussive elements for Trance producers who want to learn from professional Trance productions. Use the MIDI parts as a starting point for your new remix and add your own elements and vocals. Using the supplied MIDI files you can assign any of the musical elements in this pack to your favourite synth or sampler.
